

The New York Chapter of the Arthritis Foundation is proud to honor Charles Long, Jr.

William Macaulay, M.D.
and

Ronald J. Sylvestri

at the Annual Dedicated Dad Awards Dinner. This event celebrates local men who successfully juggle work, community service and the critical demands of fatherhood. Money raised from this event helps support vital research and brings a wide range of programs and services to Westchester County residents living with the disease.

The Arthritis Foundation is the only nationwide, non-profit organization helping people take greater control by leading efforts to prevent, control and cure arthritis and related diseases.

Since its inception in 1948, the Arthritis Foundation has invested more than \$400 million in arthritis research that has dramatically helped to change the landscape of this devastating disease.

The New York Chapter has hosted a variety programs in the Westchester community including Kids Fun Days for children with juvenile arthritis and their families, and many worksite programs and public forums addressing the newest treatment options for people with rheumatoid arthritis, osteoarthritis, osteoporosis and juvenile arthritis. The Chapter continues to offer disease management classes in Spanish and English along with tai chi, exercise and self help classes for people with arthritis.
